Erik O. Clare
Executive Director
Bucks County Housing Group

March 17, 2020

To the community supporters of Bucks County Housing Group,

During these uncertain times, we have been moved by the level of support that has been received in support of our clients. We are also receiving numerous inquiries about donating items that would help our clients. We are so thankful, and grateful, for your intuitive understanding of how much we will need our community in the weeks and months to come.

We want to do everything we can to protect our staff, our volunteers, and our clients from this virus that is impacting our world. This unfortunately means we have to **STOP** accepting food and shelter supplies donations from the public.

Please DO NOT donate any food or shelter supplies, in person, to our organization. We are not able to accept them.

If you have food set aside to give, please hold off: we will certainly need it, but we cannot accept it for the sake of public health until the coronavirus subsides.

HOW YOU CAN HELP:

Please consider making a monetary donation to our organization.

Funds collected will allow us to substitute the food we normally receive through donations with food we can purchase from Philabundance, and other sources, until we can once again accept food donations. This allows Bucks County Housing Group to take care of our clients' needs, while keeping our clients, and our staff and volunteers safe.

We will be releasing more information in the coming days and weeks outlining our ever-changing needs as we strive to continue to best serve our clients.

Thank you so much for all the support and compassion you provide those in our community who need it, especially during these trying times. We are all truly lucky to have such a supportive and giving community.

Thank you for your unwavering support,

Erik Clare
Executive Director
